👤 PROFILE

I am a committed and passionate software engineer that is ready to create amazing software with a motivated team. I am currently looking for a software engineering position as a web or mobile developer that will constantly increase my knowledge by providing amazing challenges. I am looking for a position where I can work with experienced developers and participate in innovative changes.

Top Skills:

- React.js / React Native / Redux / Flutter / Swift / Java
- HTML / CSS / Javascript/ Typescript / JSON
- Angular.js / Node.js / Express.js / PHP
- GraphQL / Apollo / AWS / Restful API
- Mobile(iOS, Android) / Cross-Platform / Web / Desktop / Xcode / Android studio
- SQL / PostgreSQL / SQLite / MongoDB / JQuery
- Git / Jira / Jenkins
- Unit Testing / Jest

I am always ready to take on new challenges and learn new things! If you are looking for a committed individual and a visionary on innovative changes and beautiful design, please don't hesitate to contact me.

💼 EMPLOYMENT HISTORY

React/React Native Developer , Houston
January 2023 — Present

Technology: JavaScript, React Native, iOS(Swift), Android(Java, Kotlin), React.js, Flutter, Angular.js, PHP, HTML, CSS, jQuery, AJAX, SASS, AWS, GCP, MySQL, SQL, RESTful API

React Native / Front End Developer at Blackish Tech, Lancaster
January 2018 — December 2022

- Analyzed and designed UI/UX for web and mobile applications using Figma.
- Established design guidelines and styles for web and mobile applications using Figma.
- Participated in setting up Jira user stories and tasks for agile development.
- Joined daily scrum meetings.
- Implemented features using React v16+ with Redux, React Native, hooks, Typescript and Redux Saga.
- Used Redux for global app state management and Redux Saga with Axios for asynchronous calls to a .NET web server.
- Followed best React practices for scalability and clean code such as reusable components and implemented the RESTful API.
- Built over 30+ common components such as buttons, input fields, bottom sheets, modals, etc.
- Performed code reviews and approved PRs on GitHub.
- Built mobile applications(iOS and Android) using XCode and Android studio.
- Unit Testing using Unit Test, Jest, JUnit etc.
- Published mobile application to the App Store and Google Play store for pre-order.

React / React Native Developer at Cubix, Indianapolis
October 2014 — December 2017

- Built some web and mobile apps from scratch using Typescript, React.js, and React Native. Contributed to 10+ Web & Mobile app projects using React and React Native.

- Collaborated with the CEO(AWS Expert) to update existing web & mobile applications for the strategy and business tech stacks.
- Suggested which tech stuff and services he should use for the performance app development with convenient maintenance.
- Built lots of MVP versions of mobile applications such as Communication App,
- Mentoring app, Booking app, Dating app, Fitness App, Shopping App for the scalable infrastructure using React, React Native, JavaScript, Typescript, Gatsby, SSR, D3, Chart.js, Amchart4, Next.js, GraphQL, CMS, WordPress, RESTful API, etc.

Junior Web Developer at Helix Soft, Oklahoma City
February 2011 — September 2014

- Worked as a PHP developer to create websites for a real estate agent to show properties based on user location, Customized WordPress theme to make changes in website design.
- Fixed some issues in websites functionality.
- Website content (PHP, MYSQL, WordPress, JavaScript, HTML, CSS)

EDUCATION

Bachelor of Computer Science, Gift University, Gujranwala
February 2004 — February 2008

- **Relevant coursework:** Object-oriented Programming, Data Structures and Algorithms, Database Development
- **Extra-Curricular Activities:** Member of university team for the worldwide SCORE contest for software engineering.
